

# Victorian Salers Studs Open at 2013 Autumn Victorian Stock and Land Beef Week 30 January - 6 February 2013

<http://www.beefweek.com.au/Entries.aspx?CurrentSeason=autumn&CurrentYear=2013&SpecificDay=5#560>

## Day Five, Sunday, February 3<sup>rd</sup> 560 Salco Partners Salers

**Peter Rogers 03 9939 8168 / 0408 330 198**

**E: [peter@salcopartners.com.au](mailto:peter@salcopartners.com.au)**

**W: <http://www.salcopartners.com.au>**

**Location:** 4860 South Gippsland Hwy, 3k W-SW of Lang Lang PO.

**Information:** Over the past 23 years Salco Partners have built one of the largest pedigreed Salers herds in Australia, with over 100 registered breeding females. Our herd is based on top Australian and French bloodlines. This year we will have on display progeny, including bulls, of the French sires Sancy, Variegeois, Nomade and Texas as well as 10 heifers in the RASV Heifer Challenge. We use Salers Breedplan with additional selection for temperament, polling, fertility and maternal traits. Salers are renowned for exceptional calving ease. Repeated success in the Gippsland grass fed steer trials demonstrates the exceptional weight gains of our purebred and SalersXAngus calves.

## Day Six, Monday, February 4<sup>th</sup> 613 Black Stamp/New Auvergne/Murrabah Angus/Salers

**Malcolm Randall 03 5663 2235 / 0427 387 441**

**F: 03 5663 2235**

**E: [angus@blackstamp.com.au](mailto:angus@blackstamp.com.au)**

**Location:** 105 Stamp Rd. From Fish Creek go NE on Meeniyan-Prom Rd for 400m, right to stay on Meeniyan-Prom Rd, go 1.6k, right into Foster-Prom Rd and go 9k, right onto Kerrs Rd (gravel) and go 4k, left onto Stamp Rd. First gate top of rise 1.2k from last turn.

**Information:** Stamp Cattle Co strives for commercially focussed industry relevant seedstock that excel across a wide range of traits. Rather than chase one or two traits we prefer a balance of growth, carcass, maternal and docility in a structurally sound package. This provides an opportunity to reach a wide range of target markets and gives market flexibility. We aim to achieve this by sourcing the best Australian, NZ, US and Canadian genetics for AI and ET programs. On display a selection of breeders with calves, donors, herd sires, yearling bulls and heifers. Visitors most welcome.
